

Premier's Reading Challenge Years 3-6 IMPORTANT UPDATE

There have been a few changes to the PRC for this year.

The most important change is **the number of choice books** that a student may read.

Usually students may read up to 5 personal choice books, these are books that are not on the PRC booklists, and that are at an appropriate reading level. This year students may read up to 10 choice books. This allows students to select and read books that may be in book collections at home. These extra choice books are called "2020 bonus choice books".

Adding choice books is a little complex.

The 'first' 5 choice books are added in the usual way, [this page](#) explains how to do that.

Then adding the next 5 choice books, the '2020 bonus choice books', is [explained on this page](#).

If this presents too many challenges, keep using the [paper Reading Log](#) and Ms Ratcliffe will be able to help students at school.

The other changes to the rules of the PRC for 2020 are [explained here](#)

[This video](#) explains how to use the Student PRC website.
